Nunc aves magnum per inane nullas
Temperant voces: Veneri ſacratæ
Nec levant pennas teneræ columbæ,
Nec loca luſtrant.

Nec canit ſuaves Galerita cantus;
Nec canit molles Philomela planctus:
Nec ſoror Progne veneranda mulcet
Gutture voces.

Nec virent vernis violis aprici
Et roſis horti, croceis & herbis,
Dantibus verpo varios odores
Ritè Priapo.

Conjugum dulcis Dionæa proles
Vinculum, cernens violis egentes
Et roſis hortos, Heliconis arces
Prandio amœnas.

Hîc modos audit, melos & benignum
Hîc ſonos nexit fidium Thalia,
Gratiæ, Muſæ, & nitidis Minerva
Cincta corollis.

Hîcce ceratis ope Dedalæa
Structa pennis Calliope, potentum
Principum nervis renovavit alta
Voce triumphos.

Vinifer Bacchus minimùm falernis.
Invidens uvis, Cyathos coronans
Cœcubo at vino, cecinit latinum
Barbite carmen.

 Aſsidens

Aſsidens Muſis Venus, alma mater
Gentîum, & caſti thalami voluptas.
Blandulos molli cecinit PhiIetæ
Gutture amores.

Deîn Lyra, plectro Citharæ coegit
Cymbali & pulſu, Satyros, adultas
Virgines, Nymphas, Dryades, choreas
Duxit amoris.

Dum ſedet, cœpto favet & labori,
Audit ex templo ſtrepitum, virile
Murmur & gnati penetrantis alta
Culmina cœli.

Audit & pictam Gnidii pharetram
Audit effuſas celeri ſagittas
Impetu, implentes iuvenum novella
Pectora flammis.

Conſtitit ſtatim Cytherea, palmas
Ad polos tendens niveas rubentis
Ætheris, gnati vocat ore nomen
Illa ſereno.

Tinnulam dextrè Veneris querelam
Audiens, alas acuit Cupido,

Mater ô mater Venus (inquit) aures
Verte nunc dictis bibulas facetis.
Parta ſit rurſus mihi jo triumphus,

Auribus demum Venus obſtinatis
Dicta percepit pueri, cachinnos
Movit argutos, ſubitò jocoſa
Ora reſolvens.

Spontè qui gaudes hominum & Deorum
Fervidus thecnis domitor Cupido,
Quiq́ʒ funeſtas acuis cruenta
Cote ſagittas

Cur micat pectus? cor & inſoleſcit?
Cur tumet mens? cur varios colores
Induit vultus, variasq́ʒ pingit
Ecce figuras?

Quos dolos, (inquam) renovas, Dianæ
Juppiter magni moderator orbis
Sumſit an caſtæ ſpeciem? an recurva
Cornua Tauri?

An DEVM matrem phrygii Leones
Quam vehunt curru, Cybelen, nitentes
An Camœnas nunc jaculis pharetræ
Cogis in ignes?

Quicquid eſt id, proh vereor, dolore
Palpito (riſit tacitè) Cupido.
Ne dolos, fraus te maleſana diris
Mergat in undis.
